

PRESENTING THE 8TH ANNUAL

SCIENCE NIGHT

Beginning at 5:00 PM, a poster and demonstration session:

- ◇ "Teaching a drab message in a fun and engaging way" - a demonstration of a new oil spill education activity - Dr. Switgard Duesterloh, Assistant Professor of Marine Biology at Kodiak College and Director of the Ocean Science Discovery Program and Joong Hyun Lee, a Kodiak High School senior. *PWSRCAC– Youth Involvement Project*
- ◇ "Cordova Green Crab Trapping Update"- Sarah Hoepfner, a Cordova High School Senior . *PWSRCAC– Youth Internship Program*

Hors d'oeuvres will be provided!

Beginning at 6:00 PM, this year's presenters include:

- ◇ **Merv Fingas** will give an overview of recent research on oil spill dispersants.
- ◇ **Mark Carls** will be talking about the toxic impacts of hydrocarbons (crude oil) on salmon and herring.
- ◇ **Danielle Verna** will talk about testing ballast water for invasive species in Port Valdez & other U.S. ports.
- ◇ **Shelton Gay** will talk about his work on the fresh water/glacier influences in the bays and fjords of Prince William Sound, especially those areas used by juvenile herring.
- ◇ **Shad O'Neel** will be talking about his recent research on Columbia Glacier.

WHEN: Thursday, December 5, 2013, 5:00 PM to 8:30 PM

WHERE: Hilton Anchorage Hotel, Aspen Spruce Room
